Ahmed Khaled

Senior Frontend Developer (Angular & React)
Cairo, Egypt | +201020696230 | +201145626326 | Email | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Senior Frontend Developer with **4 years** of experience building scalable ERP dashboards and e- commerce web applications using Angular and React. Strong expertise in frontend architecture, state management, and performance optimization. Experienced in delivering production-ready solutions for high-usage internal systems and remote teams.

TECHNICAL AND SOFT SKILLS

- Frontend Frameworks: Angular, React.js, Next js, Vue.js.
- State Management: NgRx, Redux Toolkit.
- UI Libraries: Angular Material, Ng-Zorro, Ant Design, MUI, Tailwind CSS, Bootstrap.
- Languages: Typescript, JavaScript, ES6+, HTML5, CSS3, Sass, Python.
- Backend & Databases: Node.js, Express.js, Mongo DB, MySQL, .Net Core, SQL Server, Firebase.
- Tools & DevOps: Git, GitHub, GitHub Actions, WebSocket.
- Lead the development of responsive, and performant web applications.
- Architect and implement scalable frontend solutions with best practices in mind.
- Collaborate with designers to translate designs into high-quality code.
- Mentor junior engineers and conduct code reviews to ensure code quality and consistency.
- Optimize applications for maximum speed, scalability, and maintainability.
- Work closely with backend engineers to integrate APIs and services.
- Stay up-to-date with emerging frontend technologies and frameworks, proposing improvements where appropriate.
- Participate in product planning and help define technical requirements and timelines.

PROFESSIONAL EXPERIENCE

Senior Frontend Developer Angular – MAIDS.CC (Remote) **Jun 2024 – Jan 2026**

- Enhanced scalable ERP dashboards using Angular for complex internal business operations.
- Optimized frontend architecture through component refactoring and efficient state management.
- Implemented complex business logic, reusable components, and reactive forms.
- Integrated RESTful APIs and real-time data handling for dynamic application behavior.
- Collaborated with cross-functional remote teams to deliver maintainable and high-performance

Frontend Developer React and Angular – MEGA DEV **Oct 2022 – Jun 2024**

- Built responsive web applications and dashboards using React and Angular across multiple industries.
- Designed and maintained scalable frontend architecture with reusable UI components.
- Managed complex application state using Redux Toolkit and NgRx.
- Integrated RESTful APIs and real-time data handling.
- Ensured cross-browser compatibility and consistent user experience.

KEY PROJECTS

1. **Chatcc – ERP Dashboard (Angular) | Jun 2024 – Jan 2026 (Chat.cc - Erp)**
   - Developed scalable, high-performance Angular modules for an ERP dashboard.
   - Integrated complex business logic and RESTful APIs with real-time updates.
   - Collaborated with cross-functional teams to enhance usability and operational efficiency.

2. **Mqraaty Dashboard (Angular) | Jan 2024 – May 2024 (Maqraaty)**
   - Management system for educational tracks with full CRUD operations and progress tracking.

3. **Rabeh Driver Management System (React JS) | Oct 2023 – Dec 2023**
   - Built a specialized dashboard for managing driver logistics and schedules using React.

4. **El Hamd Agricultural Crops (React JS) | Jul 2023 – Sep 2023 (El-Hamd)**
   - Developed a corporate website and product catalog for the agricultural sector.

5. **Beirutmart E-commerce Platform (React JS) | Apr 2023 – Jun 2023 (Beirutmart)**
   - Fully functional shopping and delivery website with state-managed cart and checkout systems.

6. **Laporex – Medication Orders Management (React) | Jan 2023 – Mar 2023 (Laporex)**
   - Developed a high-performance React app for managing medication orders with real-time updates.
   - Integrated RESTful APIs to streamline order workflows and ensure reliable CRUD operations.
   - Built responsive**,** dynamic interfaces with optimized forms, tables, and notifications.
   - Enhanced app performance and scalability, improving load times and user experience.

7. **Doctor Book Web App & Dashboard (Angular) | Oct 2022 – Dec 2022**
   - Built responsive Angular web app and admin dashboard using modern architecture.
   - Implemented appointment booking, rescheduling, and cancellation workflows.
   - Integrated RESTful APIs for authentication, appointments, and user management.
   - Developed role-based dashboards with route guards and permissions.
   - Used Reactive Forms, RxJS, and Observables for data handling and validation.
   - Optimized performance with lazy loading, OnPush change detection, and reusable components.

EDUCATION

Bachelor of Science in Computer Science Tanta
University | Graduation: 2022

LANGUAGES

- Arabic: Native.
- English: Intermediate.
